THE SIEBENTHALER COMPANY

Please Read Carefully

DIRECTIONS FOR ORDERING:- Write name and address plainly and advise time and method of shipment, otherwise we will use our best judgment and ship by the shortest and safest route.

PRICES:- Prices in this list cancel all previous lists and quotations. They are subject to change without notice and to stock being unsold upon receipt of order. They include packing costs, except on excessively bulky material and are f.o.b. our freight or express station. For local orders they include delivery to customer if within 10 miles of our Nursery. Cost of delivery by truck to more distant points will be quoted upon request.

SUMMER PLANTING:- An extra charge is made for balling deciduous plants not marked B&B either in dormant season or in full leaf for summer planting.

TERMS:- Cash with order, except to persons who satisfy us as to their financial responsibility, when accounts will be due in 30 days from date of invoice.

QUANTITIES:- Five plants will be furnished at the 10 rate; six at the 12 rate; and twenty-five at the 100 rate.

INSPECTION:- A certificate of inspection by the Ohio Department of Agriculture will be attached to each shipment.

LANDSCAPE SERVICE:- We maintain a thoroughly trained landscape organization fully equipped to handle any landscape project including designing, construction, and planting. Ask for special quotations on such work.

GUARANTEE:- All plant materials are warranted to be true to name, up to size specified and in good healthy condition when delivered, otherwise replacement will be made or original amount paid will be refunded. We cannot, however, guarantee the growth of plants not planted by us. This is due to the perishability of such material and the fact that their care and up-keep is beyond our control. Any plants planted by our Landscape Department and given proper care by the owner are guaranteed to grow and thrive satisfactorily for one year from date of planting. Those failing to do so will be replaced without charge the following planting season.

EVERGREEN TREES

Our Evergreens have been transplanted frequently and many have been sheared, insuring a mass of fibrous roots and well shaped tops.

Prices include balling and burlapping.

LARGE SPECIMEN TREES

We are prepared to furnish and move trees of extra large size. The caliper measurement is taken at a point twelve inches above the ground surface. These trees are all grown far apart in nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving.

The prices quoted below include moving and planting with a large ball of earth, but are subject to deviation, dependent upon conditions at point of planting, distance, etcetera.

The caliper is taken two inches above the bud. Unless specially mentioned, the apple, cherry, plum, pear and quince trees are two years old and the peach trees are one year old.
